

Future Galileos 2012 – Application Form

Applications will be accepted between January 1 and March 31, 2012. You will be notified that your application has been received.

Electronic Submission is preferred to: dean@cincinnatiobservatory.org

Or by mail to:
Dean Regas, Outreach Astronomer
3489 Observatory Place
Cincinnati, OH 45208

Name: _____ Age: _____

Address: _____

City: _____ State: _____ Zip: _____

Phone: _____

Email: _____

School or Organization: _____

Please list any additional team members and their titles:

Tell us a little about yourself and your interest in astronomy.

Briefly describe why you would like to participate in this program – what is your goal?

A large element to this program is a willingness to share your telescope with others. Describe how you would use your telescope to reach a large audience and expand astronomy education in your community.

What will you do?

How will you do it?

Who will be involved in supporting your project? (Principals, Schools, Churches, Scouts)

Who will be your audience? (Ages/grade levels, demographics, be specific)

What benefits to your community will this telescope provide?

Do you currently own or have access to a telescope? If so, please describe the type of telescope and why an additional telescope would be of special benefit.

The Future Galileos program can loan you solar filters that allow you to use the telescope during the daytime to safely view sun spots and solar flares on the Sun. Would you incorporate solar viewing programs into your plan? If so, please describe.

Before being awarded your telescope you will have to attend three training classes on the use of the telescope and use your telescope with public on three occasions. Do you understand and accept these terms?

Anything else you would like to add? (Additional information and letters of support may be enclosed or attached)
